HEATHERS

A wide range of heathers, for all types of soil, will be available during the year, principally from autumn through to spring.

FORESTRY AND HEDGING

We stock a range of hedging plants, including mixtures suitable for native field hedges. Bare rooted plants are available during the winter months when they are dormant. Container grown plants are available throughout the year.

There are many excellent shrubs for hedging that are often overlooked and underused and yet brilliant for certain situations: please ask for suggestions. We also stock hedging related items such as rabbit guards.

TOPIARY AND STANDARDS

As well as the traditional box and yew we have a range of other species and varieties trained as standards, trellis and topiary shapes, including;

Eleagnus x ebbingei, Ilex aquifolium 'Aurea Marginata' and other hollies, Laurus nobilis (bay), Ligustrum delavayanum, Ligustrum lucidum 'Tricolor', Liquidambar styraciflua 'Gumball', Olea europea (olive), Photinia x fraseri 'Red Robin' and Photinia x fraseri 'Atropurpurea Nana', Prunus lusitanica 'Myrtifolia', Viburnum tinus 'Eve Price', Cryptomeria japonica 'Globosa Nana' and other conifers. The climber Trachelospermum jasminoides trained on arches and umbrellas and Wisteria trained on arches and as half standards.
